## Q. Why take a College Entrance Exam Preparation class?

Unlike in years past, today most serious students preparing for their college education are taking a preparatory class to increase their college entrance exam scores. These students will have an advantage over those who do not take one.

The desirability for higher college entrance exam scores is straightforward and generally falls into one of the four following categories:

1. To pass the admissions standards for the college of your choice,
2. To gain acceptance into the honors program,
3. To reduce the cost of out-of-state tuition,
4. To qualify for scholarships

## Q. When should you take a preparatory class?

### A. The sooner the better.

- As a **Senior**, to score higher on a college entrance exam in order to qualify for priority admissions and scholarships;
- As a **Junior**, to compete for National Merit Commended, Semi-finalist, and Finalist status and the increased scholarships that come with it;
- As a **Sophomore** and/or **Freshman** (*as long as the student has completed Algebra I*) because:
  - ✓ The course content is jam-packed, and it is unlikely ALL the information will be retained from taking the course only once.
  - ✓ The mathematics, critical reading skills, grammar, and vocabulary taught in the course enhance students' regular academic courses, potentially increasing their GPA.
  - ✓ There is a much higher probability of achieving National Merit status when the course is taken two (2) or even three (3) times. Most of my Commended students, National Merit Semi-finalists, Finalists, and students scoring perfectly have taken the course at least twice.
  - ✓ There is higher probability of achieving one of numerous other scholarships (over \$180 million!), including American Indian Graduate Center and American Indian Graduate Center Scholars (AIGC and AIGCS), Asian and Pacific Islander American Scholarship Fund (APIASF), Hispanic Scholarship Fund (HSF), Jack Kent Cooke Foundation (KCF), and United Negro College Fund (UNCF), CLT-10 scholarships, partner college opportunities, CLT-10 Scholarship, plus many other institutional and private scholarship opportunities.
  - ✓ Some students begin preparing as **Eighth Graders**. (*Completion of Algebra I is a pre-requisite.*)

## College Entrance Exam Preparation Classes - 2026

**College Entrance Exam Preparation** for high school students (grades 9-12) will meet once a week for eight (8) weeks. Eighth-grade students who have completed Algebra 1 may also enroll. The Preparation Course includes a pre-recorded orientation class, summer vocabulary/grammar quiz mail-ins, 8 two-hour classes, one book, and weekly class packets of practice exercises. The cost for the **College Entrance Exam Preparation Class** is **\$500.00**. \*

### **TUITION BALANCE:**

**If not paying in full by May 1<sup>st</sup>, the balance amount of \$300 is due by the first August class.**

*Please understand that providing low-priced, small, effective classes does not allow for refunds for missed classes, whether planned or unplanned, however, missed classes can be made up during that week at the other location.*

**GENERAL INFORMATION:** The Prep Course addresses all three sections of the various college entrance exams. The **Writing/Language** preparation includes a review of punctuation, grammar, sentence structure, and common usage errors. The **Reading** preparation includes an intense vocabulary study (including Latin and Greek prefixes, suffixes, and roots), as well as a study of successful test-taking strategies. The **Math** preparation reviews geometry, the more extensive algebra covered on the SAT, CLT, and ACT, and data analysis. Also taught, are time-saving shortcuts and helpful strategies, such as back solving and using special numbers. Prep also includes interpreting relationships presented in graphs and tables, which is necessary for success in all three sections of the tests. General test-taking strategies are also taught. Weekly assignments include readings, vocabulary memorization, reworking math problems, and mastery of class notes. Practice Tests, for your chosen test, taken at home are an integral part of this course, providing the student an opportunity to practice newly learned skills. The orientation class and summer vocabulary/grammar memorization schedule are designed to help students accomplish as much work as possible before the busy fall semester begins. The 8-week Preparation Course is designed with the most effective timing in mind for October testing. Classes begin the week of Tuesday, Aug. 4<sup>th</sup>, and finish Saturday, September 26<sup>th</sup>.
